QUASAR Series

Where Precision Meets Power

We are proud to introduce Quasar, our latest innovation in line array loudspeakers and subwoofers. Designed to redefine audio excellence, Quasar immerses audiences in a powerful sonic experience like never before.

With high SPL and an impactful low-frequency response, Quasar sets a new benchmark in sound reinforcement. Built with cutting-edge technology, it delivers exceptional clarity, power, and punch, ensuring uncompromised performance for any event.

Elevate your sound with Quasar—where precision meets power.

Q210Li

The Atomik Audio Quasar Q210Li is an installation specific line array engineered for precision and reliability. This two-way line array loudspeaker delivers superior sound quality and broad coverage for demanding professional applications. Its design ensures that even from a small form factor, it provides powerful, clear, and accurate sound reproduction, meeting the high standards required for critical audio environments.

Q18S

The Atomik Audio Quasar 18S is a high-output professional subwoofer, engineered for audio rentals and fixed installation applications. Constructed from tour-grade plywood, its reinforced structure ensures maximum durability, making it well-suited for rigorous touring conditions.

Equipped with an 18-inch sub driver featuring a 4-inch voice coil, the Quasar 18S is designed to deliver exceptionally high SPL levels. Its bandpass enclosure optimizes low-frequency response and efficiency, providing deep, controlled bass reproduction with significant impact.

Q218S

The Atomik Audio Quasar 218S is a high-performance, horn-loaded dual 18-inch subwoofer, engineered for professional audio rental companies and fixed installations.

Designed for maximum efficiency and durability, it delivers exceptional low-end response with impressive punch at extremely high SPL levels.

Q221S

The Atomik Audio Q221S is an ultra-powerful infra sub-bass loudspeaker, engineered to deliver exceptional subsonic performance. Designed for large concert venues and nightclubs, it offers very high acoustical output, ensuring deep, impactful bass reproduction.

Featuring dual 4.5-inch voice coils and an 8000-watt peak power handling capacity, the Q221S is built for maximum efficiency and reliability.

Its low-noise forced air cooling system enhances thermal management, allowing sustained high-performance operation under demanding conditions.
