Introduction

Epoch – A homage to vintage audio.

From the 1950s through the 1980s, loudspeaker design was driven by acoustic purity and mechanical ingenuity.

Vintage loudspeakers are more than relics of audio history—they're enduring testaments to analog craftsmanship, sonic philosophy, and design integrity. Built during an era when fidelity trumped convenience, these speakers continue to captivate audiophiles, engineers, and collectors alike.

SKU Number: EP01-SPKR-0000-4729

Description

2-way full-range loudspeaker designed for refined listening environments. Combines the warmth of classic analog systems with modern studio-grade resolution.

Rich midrange, smooth transients, and expansive soundstage for immersive playback.

Voicing inspired by the golden era of vinyl, while maintaining neutrality for critical listening.

Faithful reproduction that preserves the artist's and engineer's original intent.

Features

Available in a wide range of finishes and textures, allowing each unit to reflect its owner's space and sensibility. While customization is limitless, the system leans toward natural wooden tones—walnut, teak, rosewood, and oiled birch—paying homage to the vintage designs that inspired it.
